ADOPT A HYDRANT

There are approximately 130 fire hydrants located in the Village of Pinckney. By adopting a hydrant and keeping it clear of snow in the winter, you will save firefighters precious seconds needed to save a victim's life or fight a spreading fire. Help yourself and your neighbors by locating and 'adopting' your nearest hydrants and maintaining open access. If you believe there is an issue with a hydrant needing repair or attention, please contact the Village of Pinckney DPW at 734-878-0666.

Winter Maintenance - Mailboxes

Please check your mailbox posts to ensure that they are solid and sturdy in the ground. This will ensure that when heavy snow is plowed off the road, your mailbox will not be pushed over.

When Seconds Count...

Which would you rather have to protect your home?

After a snowfall, remember to clear a three-foot radius around fire hydrants near your home.

Snow on Sidewalks –

Per ordinance 92.62, snow or ice may NOT remain on the sidewalks more than 24 hours (business) or 48 hours (residential) after it has fallen or accumulated. If you don't shovel your sidewalks, you WILL be fined and the snow removed at the EXPENSE OF THE PROPERTY OWNER.

Snow Emergency Parking Rules –

In the event of a large snowfall (four inches or more), the Village of Pinckney will declare a snow emergency. No vehicles will be allowed to park on the street in order to allow DPW to safely plow the streets. Snow emergencies are declared on the Pinckney PD Facebook, on WHMI, and the Livingston Daily. **If a large snowfall is forecast, please do not park on the street.**

Best Practices for Your Trash Containers in Winter

- Find a good place to put your bag/bin/cart. Shovel a spot at the curb or place your container in the driveway so the drivers can service it.
- Keep your cart out of the street to avoid any plow truck casualties.
- Make sure your cart can be closed all the way so snow or rain doesn't get in. This will keep the contents from freezing.

Snow Shoveling How-To

Dress appropriately.

Use a sturdy shovel.

Bend knees to lift snow. Use legs, shoulders and torso. Do not use your back.

Remember to rest when needed and hydrate.
