Subject: 425 Dexter-Pincnkey Rd. Environmental Health review

Steve,

LCHD has received your application for review of property addition and modification. It is in process. This application gets completed in correspondence with LCBD. No building permits have been applied for at this time. In order to get any approvals to use the existing septic system you would most likely, at a minimum, need an evaluation on the existing system completed, and a determination of daily flows to show the existing system could handle the usage.

Any further questions, let me know (517) 552-6867

Sincerely,
Jake Dorony REHS
Environmental Health Specialist
Livingston County Health Department
