Aftermarket Parts:

Item	Standard Parts	Quantity	Unit
1	750MM Fine Bubble EPDM Membranes	210	ea
4	Shipping	1	ea

Total Purchase Order Amount: \$17,040

TERMS & CONDITIONS

Scope of Supply

Triplepoint Environmental will supply all process expertise and equipment as part of this quote. The customer is responsible for the costs associated with the installation and infrastructure needed, including the concrete tanks, pumps (if required), operations building (as needed) and any influent/effluent/connecting piping that may be necessary.

Payment Terms

The quote in this proposal remains valid for a period of 30 days. Fifty percent (50%) is due upon contract acceptance, forty (40%) is due upon offer to ship, and the final ten percent (10%) is due upon startup by Triplepoint’s personnel.

Currency & Taxes

All quotes are in United States Dollars. This price does not include local taxes and/or duties fees/taxes. Sales tax exception certificate must be submitted when applicable. All non-exempt taxes will be self-accessed payable by the customer to the local tax authority.

Design Limitations

The preliminary design(s) presented in this document were calculated with information provided at the time of proposal request. The design is only as good as the information provided. If incorrect or incomplete data was provided, assumptions have been made in order to develop the finished design.

Prior to product installation, design properties and considerations must be reviewed and validated by the purchasing parties.

Delivery

All equipment will be delivered within a period of three (3) to eight (8) weeks. Lead time begins once items have been approved by owner or engineer of record. All packing and shipping costs are FOB ORIGINATION.

Installation Supervision

If included, a Triplepoint certified project manager will provide supervision of installation, inspection, testing, training and startup for a minimum of two (2) days during installation.

Force Majeure

Neither Party will be liable for any default or delay in performing an obligation under this Agreement when caused by strike, riot, war, terrorism, Act of God, generalized lack of availability of raw materials or energy, or other similar circumstances beyond our control.

Recommended Influent Screening

Due to the presence of sanitary wipes and/or other debris in influent collection systems, influent screening is highly recommended. Triplepoint has consistently found that aeration systems of all types collect rags, which ultimately prevent proper operation. Screening down to 1/4" at a minimum is recommended.

Warranty

Triplepoint Environmental warrants your Aeration™ products to be free from defects in material and workmanship for a period of five (5) years from the date of substantial project completion for Municipal applications and a period of two (2) years from the date of substantial project completion for Industrial applications. If a defect is discovered in any of the constituent components covered by this warranty, Triplepoint will repair at our option using new or refurbished components for equal or improved quality. If a suitable repair is not possible, the product will be replaced. All defective parts, assemblies, and products become the property of Triplepoint Environmental. Any soft costs incurred during a warranty claim, including costs associated with removing, shipping and re-installing a warranted component, shall be the responsibility of the customer. Warranty is voided in the event issues are caused due to excessive existing sludge and/or ragging which inhibit proper operation.

Aeration Process Guarantee

Triplepoint Environmental guarantees your Aeration™ process for a period of five (5) years from the date of substantial project completion for Municipal applications. The guarantee assumes site conditions match design conditions and is voided in the event of excessive existing sludge and/or ragging which inhibit proper operation.

Limits of Liability

Triplepoint Environmental shall not be liable for any loss of profits, business, goodwill, interruption of business, nor for incidental or consequential merchantability or fitness of purpose, damages related to this quote.

Confidentiality Notice

The Aeration™ Process is the subject of one or more confidential patents or patent applications filed in the United States Patent Office, and may be the subject of one or more confidential foreign patent applications, the customer and any other related parties contracted recognize the importance of

maintaining the continued confidentiality of the design of the Aeration Process. The customer and any other parties contracted all agree that they shall not sell, transfer or disclose any such confidential information relating to the design of the Aeration Process to any other person, organization, or corporation without the express written authorization of Triplepoint Environmental LLC and pursuant to an enforceable agreement of confidentiality, except as required by law or as necessary in connection with the use, operation, maintenance, repair, or replacement of the system. Additionally, the customer and any other parties contracted all agree to preserve the confidentiality of this proposal and all materials attached and not to distribute or copy such materials for any other party's not previously authorized by Triplepoint.
