### **Pinckney Installs new EV Charging Stations Downtown**

Pinckney, Michigan – Members of the Downtown Development Authority (DDA) along with the Pinckney Village Council invite you to the Ribbon Cutting of the Village's new EV Charging Stations on **June 12, 2023 at 6:00 p.m. at the DDA Parking lot** (Directly behind the Community Garden)

As more and more drivers transition to EVs, the DDA wants to be a participating partner in the charging capacity across the State and add Pinckney as a destination stop for travelers as well as provide opportunity to area residents to charge their vehicles while shopping, dining or participating in recreational activities along the pedestrian/bike trail system. This is an investment in providing solutions for the future and put Pinckney on the map - Charging Stations map that is.

Two Level 2 Blink Charging stations capable of charging four vehicles at the same time were installed this spring in the DDA parking lot **at the corner of Marion and Livingston Streets**. Directional signage will be installed shortly. Prices for charging will be based on actual electricity costs.
