I'd like this to be addressed to the entire board please and thank you.

On Wednesday April 24, 2024 at around 7:45am I went to my business as I always do to work. My business is Hell survivors paintball field.

Ms Julie Durkan's large white truck was parked in front of my entire gate parallel with the gate blocking me from entering my business as I normally would, by pulling straight forward in front of the gate to normally enter the property. I came around toward the back end of her truck and pulled in on the inside corner where there was room with my car to the side and back end of hers with approximately 6 ft of space in between vehicles. She was on the other end of her truck at the front side standing at my gate outside taking photos.

I got out of my vehicle to open my gate and said good morning, she said good morning I said how are you with no response from her and she was back in her car and sped off kicking rocks at my vehicle and myself.

Now I did not say anything or would not have said anything as clearly she does not like me. However, it is unfortunate to hear that she is now informing people that I "tried to run her over" with my vehicle.

I am not ok with accusations as such especially ones of harming someone.

I am a very kind person and have done nothing wrong. I expressed my concern that one day at the meeting with how things were approached toward me when I first met her and I thought it was over. I did not stand in front of everyone to cause drama or have a battle. I as a business owner just shared my thoughts of how I felt as a first timer and what I've experienced with the many years working with the township and how it would be beneficial to maybe see things in a different light from a business owners side. Now I feel I am being attacked and this is by far in a HUGE way and I feel is very serious.

I would like this to be addressed for the rumor of harming someone as false and now do not feel safe with Ms. Julie Dunker.

Thank you for your time,
Marie Butler
